

# SAFETY DATA SHEET

RESIST-3 O.K.N. K-SeT

Version: 3

Edition: 20/02/2023

Page 1/3

SECTION 1. Product identification			
1.1. Trade name	RESIST-3 O.K.N. K-SeT Code: K-15R5		
1.2. Manufacturer	Ph: E-Mail: <u>inf</u>	CREALYS Science Park, Rue Guillaume Fouquet, 11 5032 Gembloux, Belgium. +32/81 719 917 ; Fax: +32/81 719 919 ; p@corisbio.com - Web Site: www.corisbio.com	
1.3. Kind of use	In vitro Rapid Diagnostic Test for the detection of OXA-48, KPC and NDM carbapenemases on bacterial colony FOR MEDICAL DIAGNOSTIC USE ONLY For details, see insert		
SECTION 2. Health hazard data/risk identification			
Main exposure risks and symptoms	Buffer Contact wit Ingestion:	h eyes: Irritation, tears.	
SECTION 3. Composition, information on ingredient			
3.1. Classification	In vitro Diagnostic	device	
3.2. Components	Laminate: Absorbent paper: Release matrix:	Active matrix → nitrocellulose + mylar Plastic backing → Polyester Sample PAD → glass fiber Absorbent paper → cellulose paper Conjugate PAD → glass fiber	
	LY-A buffer:	Salts → restricted information Additive(s) → restricted information Conservative → Sodium Azide (<0.1%) pH → 7.5 Molarity → restricted information	
3.3. Biologicals	Specific reagent:  Control reagent:	Anti-OXA-48 → mouse monoclonal antibody (purified) directed against one first epitope of the OXA-48 carbapenemase and variants (but not the OXA-163 variant)  Anti-KPC → mouse monoclonal antibody (purified) directed against one epitope of KPC carbapenemase.  Anti-NDM → mouse monoclonal antibody (purified) directed against one epitope of the NDM carbapenemase  Antichicken goat polyclonal antibody (purified by precipitation)	
	<u>Conjugate</u> :	precipitation) Antimouse goat polyclonal antibody  Anti-OXA-48 antigen: mouse monoclonal antibody (purified) gold colloïd coupled Anti-KPC: mouse monoclonal antibody (purified) gold colloïd coupled Anti-NDM: mouse monoclonal antibody (purified) gold colloïd coupled Chicken IgY: chicken polyclonal gold colloid coupled	
3.4. Hazardous substance	Sodium Azide : < 0		

## SAFETY DATA SHEET

Edition: 20/02/2023

Page 2/3

D-5D5-R5			
3.5. Packaging material	Box → cardboard  Buffer bottle → polyethylene-polypropylene  Pouch → polyethylene aluminium foil plastic  Sampling Tube → polypropylene - GPPS – polyurethane  K-SeT → ABS		
3.6. Other information	Latex free		
SECTION 4. Emergency and first aid procedures			
4.1. Contact with eyes	Buffer: Immediately flush eyes thoroughly with water.		
4.2. Contact with skin	Buffer: Immediately wash skin with soap and large volume of water.		
4.3. Ingestion	Buffer: If swallowed, wash out mouth with water provided the person is conscious; seek medical advice (showing this document when possible); never give anything by mouth to an unconscious person; never try to make an unconscious person vomit.		
SECTION 5. Fire hazard data			
5.1. Flammability	Contains combustible materials.		
5.2. Extinguishing	Water, carbon dioxide, dry chemical powder or polymer foam. Use extinguishing media appropriate to surrounding fire conditions.		
5.3. Special Fire Fighting procedures	For fires involving this material, do not enter any enclosed or confined fire space without proper protective equipment. This may include self-contained breathing apparatus to protect against the hazardous effects of normal products of combustion or oxygen deficiency.		
SECTION 6. Accidental release measures			
6.1. Precautionary measures	Wear appropriate protective clothing (refer to point 8).		
6.2. Environment Precautions 6.3. Released or spilled	Collect samples in plastic bag and submit to sterilization procedures		
material	Sweep up and collect in appropriate container for waste disposal (refer to point 13) clean the floor and all other contaminated objects with water.		
SECTION 7. Handling and storage			
7.1. Handling	Wear appropriate protective clothing (refer to point 8); eliminate rapidly from eyes skip and clothes; wash hands and any other exposed zone with		
7.1. Handling 7.2. Storage	Wear appropriate protective clothing (refer to point 8); eliminate rapidly from eyes skin and clothes; wash hands and any other exposed zone with water and mild soap before eating, drinking, smoking and leaving workplace.		
	Wear appropriate protective clothing (refer to point 8); eliminate rapidly from eyes skin and clothes; wash hands and any other exposed zone with water and mild soap before eating, drinking, smoking and leaving workplace.  Store at room temperature, not above 30°C and not below 0°C.		
7.2. Storage 7.3. Additional information	Wear appropriate protective clothing (refer to point 8); eliminate rapidly from eyes skin and clothes; wash hands and any other exposed zone with water and mild soap before eating, drinking, smoking and leaving workplace.  Store at room temperature, not above 30°C and not below 0°C.		
7.2. Storage 7.3. Additional information	Wear appropriate protective clothing (refer to point 8); eliminate rapidly from eyes skin and clothes; wash hands and any other exposed zone with water and mild soap before eating, drinking, smoking and leaving workplace.  Store at room temperature, not above 30°C and not below 0°C.  Refer to point 10.		
7.2. Storage 7.3. Additional information SECT	Wear appropriate protective clothing (refer to point 8); eliminate rapidly from eyes skin and clothes; wash hands and any other exposed zone with water and mild soap before eating, drinking, smoking and leaving workplace.  Store at room temperature, not above 30°C and not below 0°C.  Refer to point 10.  FION 8. Exposure controls and personal protection  Laboratory gloves.		
7.2. Storage 7.3. Additional information SECT 8.1. Hands protection	Wear appropriate protective clothing (refer to point 8); eliminate rapidly from eyes skin and clothes; wash hands and any other exposed zone with water and mild soap before eating, drinking, smoking and leaving workplace.  Store at room temperature, not above 30°C and not below 0°C.  Refer to point 10.  FION 8. Exposure controls and personal protection  Laboratory gloves.  Laboratory coat.		
7.2. Storage 7.3. Additional information SECT 8.1. Hands protection 8.2. Skin protection	Wear appropriate protective clothing (refer to point 8); eliminate rapidly from eyes skin and clothes; wash hands and any other exposed zone with water and mild soap before eating, drinking, smoking and leaving workplace.  Store at room temperature, not above 30°C and not below 0°C.  Refer to point 10.  FION 8. Exposure controls and personal protection  Laboratory gloves.  Laboratory coat.  Safety goggles.		
7.2. Storage 7.3. Additional information SECT 8.1. Hands protection 8.2. Skin protection 8.3. Eyes protection 8.4. Ingestion	Wear appropriate protective clothing (refer to point 8); eliminate rapidly from eyes skin and clothes; wash hands and any other exposed zone with water and mild soap before eating, drinking, smoking and leaving workplace.  Store at room temperature, not above 30°C and not below 0°C.  Refer to point 10.  FION 8. Exposure controls and personal protection  Laboratory gloves.  Laboratory coat.  Safety goggles.		

## SAFETY DATA SHEET

## RESIST-3 O.K.N. K-SeT

Version: 3

Edition: 20/02/2023

Page 3/3

9.2. Critical temperature	Min. 4°C - Not above 30°C; Do not frozen components.		
9.3. pH	See point 3.2		
9.4. Vapour pressure	Nil		
9.5. Solubility	Nil		
9.6. Smell	Nil		
SECTION 10. Stability and reactivity data			
10.1. Dangerous reaction	Particular dangerous reactions not known.		
10.2. Dangerous properties	Particular dangerous properties not known.		
10.3. Hazardous combustion or decomposition products	Nature of decomposition products not known.		

### **SECTION 11. Toxicological information**

- Collect samples and used sticks in plastic bag and submit to sterilization procedures
- Rinse carefully polluted bench

### **SECTION 12. Ecological information**

- Data not available for stick
- Avoid flushing away in drainpipes

### **SECTION 13. Disposal considerations**

- Collect samples and used sticks in plastic bag and submit to sterilization procedures
- Rinse carefully polluted bench
- Contact a licensed professional waste disposal service to dispose of this material. Observe all federal state and regulations. Emptied bottles and vials may retain product residues: handle as if they were full.

#### **SECTION 14. Transport information**

Non classified.

#### **SECTION 15. Regulatory information**

From the European Communities Regulation (EC) No 1272/2008 on classification, labelling and packaging of substances and mixtures (CPL), this product is not hazardous and does not contain hazardous ingredients at concentrations used.

#### **SECTION 16. Other information**

Contents and format of this Safety Data Sheet comply with the European Communities Regulation (EC) No 1907/2006 concerning the Registration, Evaluation, Authorisation and Restriction of Chemicals (REACH).

The above information is believed to be correct but does not purport to be all inclusive and shall be used only as a guide. Coris BioConcept shall not be held liable for any damage resulting from handling or from contact with the above product.
